### SUBLIMATION PRODUCTS

Fully customised design on a predetermined silhouette for your club which can be personalised with numbers, initials and/or surnames. Think a Football Jersey or Basketball Singlet in team colours.

Sublimation is a type of direct printing onto fabric (polyester) allowing for specific colours and intricate graphic design application including Club logos and sponsors.

The range of sublimated products continues to grow and if you are unsure on a design or colour please just reach out to our sales team who work closely with fully integrated design and production departments.

### STOCK PRODUCTS

Select from a wide range of Puma and generic branded teamwear options. The range has a lifecycle of 2-4 seasons with all your key items available in a range of colours.

Puma products are designed and manufactured as part of the Global Range and comes with all the performance, fit, comfort and technical properties you'd expect from one of the Worlds largest sports brands.

Puma Teamwear carries a large range of stock for immediate delivery and replenishes sizes every month to ensure your team looks great, feels great and performs great.

### EMBELLISHMENT

Utilising the latest technologies in direct to film, and embroidery Puma Teamwear offer the option to add logos and badges to stock items.

We can also personalise product with numbers, names or initials.

A simple and quick option to manage and grow their merchandise opportunities.

# SUBLIMATION

Our team of experienced sales, production and highly skilled designers are available to assist you with your custom-made design.

Once you have selected your style we can help you with your design, colours and graphics. Whether it be a traditional uniform, a unique graphic such as an indigenous design or something we have created before which you'd like in different colours and a slight tweak we can work with you. Please note that due to seams and panels on certain styles we may not be able to create the exact look you are after.

Regarding colour, Puma has its own reference guide to ensure that no matter what factory, style, or fabric we use you will be getting the same colour. We can match against a Pantone reference or provide colour swatches for you to choose.

When providing logos to be incorporated into the design we request that they are provided in an .ai or .eps format which ensure the highest clarity. If you don't have the correct format don't worry as we can get it redrawn.

Any font and number style can be used to personalise your garments.

Majority of the sublimated styles are available in Men's, Women's and Youth sizing. The Men's cut can also be utilised as a unisex fit. Please see the size chart for reference and sizing sets are available on request.

All our products are designed to not only look good but also perform.

Many of our features and benefits cannot be seen to the naked eye and its not until you wear and perform in the garment that you fully understand why Puma is one of the leading sports brands in the world and worn by some of the biggest sporting teams and individuals known.

GPS pocket comes standard in the Puma Elite and Endurance AFL and Rugby jumpers.

Mens, Womens and Youths sizing available in majority of models.

DRYCELL: Patented moisture management technology that wicks moisture from the body to the outside of the garment then spreads across the fabric to keep the player dry and comfortable.

ANTI-PILING / COLOUR FASTENING / ANTI STAIN are all fabric applications to lengthen the life of the garment and ensure it looks and feels brand new week after week, season after season.

FABRIC STANDARDS: Every step of the production process is independently tested to ensure the highest quality and consistency is delivered to the end consumer.

## CUSTOM PUMA FONTS
